

INDEX TO VOLUME ELEVEN (Original Articles)

A

- Adenocarcinoma of the colon and rectum, 201
- Adenomas, villous, complicated by electrolyte imbalance, 289
- Amebiasis, acute fulminating, 359
- Anal ulcer, sliding mucocutaneous flap for treatment, 285
- Anorectal malformations, embryologic considerations in, 223
- Appendices epiploicae, torsion and infarction of, 457

C

- Cancer, colorectal, evolution of, 413
- Cancer of the colon and rectum, adjuvant therapy in surgery for (symposium), 178
- Cancer of the rectum, progress in its control, 1
- Carcinogenic agent 3:2'-dimethyl-4-aminobiphenyl hydrochloride evaluated in the rat, 365
- Carcinoma of the colon and rectum, effect of age on, 420
- Carcinoma of the rectum and colon in children, 193
- Colitis cystica profunda, 220
- Colon, preoperative preparation and postoperative care of (symposium), 163
- Colon surgery, problems of (symposium), 137
- Colonoscopy, transabdominal, with the suction-lavage sigmoidoscope, 120
- Colostomy, evolution of, 256, 367, 423
- Colostomy wall, posterior, simple method of dividing, 67
- Congenital megacolon (Hirschsprung's disease), merit of selectivity in surgical management of, 91
- Cryotherapy for inoperable rectal cancer, 36

D

- Diverticular disease of the right colon, 49
- Diverticulum of the anal canal, bleeding from, 292

E

- Endometriosis of the anal canal: Presentation of a case, 32
- Endoscopic photography as related to proctology, 102

F

- Familial multiple polyposis, carcinoma of the colon associated with, 298
- Familial multiple polyposis, genetic aspects in a kindred, 321
- Familial multiple polyposis: research tool for investigating the etiology of carcinoma of the colon?, 17
- Fibrous stricture of rectosigmoidal area treated with proctoplasty, 467
- Fissure, anal, results of sphincter dilatation under local anesthesia in, 470
- Fistula, anal, unusual, 348
- Fistulas, anorectal: current concepts, 247
- Fistulas, enterocutaneous, of the small intestine and colon, surgical management of, 69

H

- Hemorrhoidal disease, management of (symposium), 127
- Hemorrhoidectomy failures: causes, prevention and management, 45
- Hodgkin's granuloma, primary, of the sigmoid flexure, 55

I

- Irradiation, preoperative, for cancer of the rectum and rectosigmoid, 281

L

- Leiomyoma of the ischioanal region, 198
- Leiomyosarcoma of the colon—a revised prognosis, 306
- Liver scan, value in management of cancer of the large bowel, 61

M

- Megacolon and megarectum in the adult, diagnosis and management of, 97

N

- Neurilemoma of the rectum and perirectal area, 356
- Nonspecific ulcerative proctitis, simple diagnostic test for, 68

P

Perineal repair, transrectal: an adjunct to improved function after anorectal surgery, 106

Polyposis of the colon, concepts regarding, 9

Procidentia of the rectum studied with cine-radiography, 330

R

Rectal tube decompression of left-colon anastomosis, 452

S

Salmon, Frederick, biography, 447

Shock, enema, in Hirschsprung's disease, 391

Squamous-cell carcinoma of the anal canal: a metastatic lesion, 213

Squamous-cell carcinoma of the anal canal: review, 209

Syphilis, primary, of anorectal region, 462

U

Ulcerative colitis, chronic, serum proteins and endotoxins in, 124

Ulcerative colitis, indication for emergency colectomy in, 85

V

Vagina, prolapse of in association with rectal procidentia, 115

Villous tumors of the colon and rectum, surgical management of, 64
